SUMMARY

I'm a passionate Front-End and Mobile App Developer with 1+ year of professional experience building both web and mobile applications. As a final-year Information Technology student at UNEC, I develop modern, high-performance interfaces using React.js, React Native, TypeScript, and Redux. I focus on clean architecture, responsive UI, and smooth user experiences. Curious and quick to learn, I thrive on real-world challenges and continuously work on improving my skills while contributing to practical, scalable digital products.

EXPERIENCE

Front-end Developer, React Native Developer, Millisoft (hybrid) Jun 2025 - Apr 2026

- Was developing a education management platform with both web and mobile versions. The web application is built using React, with a focus on scalable front-end architecture, efficient data fetching and state management using TanStack Query, and advanced routing with TanStack Router.
- The mobile version of the same platform was being built using React Native (Expo SDK 54) and Expo Router. The system is designed to manage and streamline data for students, teachers, and staff within private education centers. Responsible for implementing cross-platform functionality, optimizing performance, and ensuring a consistent and user-friendly experience across web and mobile environments.

Front end Developer intern, Millisoft Mar 2025 - Jun 2025

Key Responsibilities:

- Worked with technologies including **React.js, Redux, TypeScript, JavaScript, Shadcn UI** and **Hero UI** to build responsive interfaces, integrate RESTful APIs, and manage roles, tasks, authentication, and profile-related features.
- Developed a dynamic **Kanban board** for task management and a fully custom **Production Calendar** using Hero UI components, both designed to optimize user workflow without relying on external libraries.
- integrated interactive data visualizations and charts using Hero UI components to present insights and optimize user workflow without relying on external libraries.

DOST center - volunteer Nov 2023-Jan 2024

ASAN service - volunteer Jul 2023-Sep 2023

SKILLS

Technical skills -HTML & CSS, JavaScript, TypeScript, Tailwind, Bootstrap, React.js, React Native, Next.js, Context API, Redux, React Router, REST API, Git

Soft skills -Teamwork, Problem-solving, Adaptability, Resilience, Willingness to Learn, Deadline-Oriented, Creativity, Critical thinking

EDUCATION

UNEC - Bachelor of Information Technology 2022 - Current

Div Academy - Front-end Development May 2024-Nov 2024

LANGUAGE

Azerbaijani (Native)

English (B2)
